Justice to Ennual.

It will be seen by our telegraph report that the House of Representatives yesterday, by the strong vote of 99 to 77, passed a bill, repealing all the obnoxious acts of the Border Ruffian Legislature of Kansas, and providing for the election of a new Territorial Legislature. Now le the Senate concur in this tardy act of justice and all may yet be well in Kansas.

Good for Cincinnati.—The people of Cincinnati, at a special election on Monday last, elec ted Hosea (Republican) to the Legislature, over Slough (Sham Democrat), who had been expelled for striking a fellow-member on the floor of the House, and was, nevertheless, re-nominated by his party. Cincinnati last November gave Mr. Buchanan some 5000 majority.

FROM OUR NEW YORK CORRESPONDENT. NEW YORK, Feb. 10, '57.

The long wished for thaw has been inundating our streets for the past 48 hours, with warm rain and melting snow, so that the pavements are once again brought to light and the omnibus rolls along where sleighs were thronging so lately. It has been a very severe season, but I hope its extreme cold is now ended. As the month as democrats, against the bill, the latter having flies our Congress seems to partake not all of its a vision of a general crushing of the Union, and speed, and I suppose, on the whole, that the a fight between the two sections of the country, less done, as a general rule, the better. The projected reduction of the turiff will fail, because none of the parties can agree as to the amount of such reductions, or the objects upon which they shall fall. Yet Sugar surely should be free -for it is a necessary of life, and the cane is not the natural growth—not as a certain cropof any part of our country. Louisiana raises it, but under a sort of hot house culture-and in order to enable the few planters there, to cultivate it without loss, every map, woman and child has to pay 2 or 8 cents a pound additional for the Sugar used. The project, however, which from its daring

and its illimitable influence upon the world, as I view it—that for laying a telegraph cable beneath the waves of the Atlantic, and thus connect Europe and America by a nerve that will thrill at the touch in all its parts I particularly desire to see succeed, may, I fear, fail in the House of Representatives: It passed thre' the Senate triamphantly, but objections thicken in the House -and reasonable ones too-yet in such an enter prize and in order to ensure its success, I could overlook a great many objections that to un or dinary bill might be deemed conclusive. Unly to think that by withdrawing the aid of this Country, in the present condition of the enterprize, it may be, not postponed merely, but defeated! The money asked is only maked as an millions lying idle in the treasury, that will be diverted, it may be feared, to projects for less peneficent and wise. To think that you might, in Milwankee, talk with London almost as rapidly as now you can with this city, and then to think that from some little jealousy about the termini of the magic wire being both in the British dominions and from some inter calculations of the greater pecuniary value of such a line of comrounication to Great Britain, than to the United States, it may not be perfected! And then "the wolce of blood" will essay in vain to be heard from either shore. But I hope for better, and that another year will witness the greatest triamph yot dreamed of in the progress of univeral brotherhood

We have now rumors daily of Cabinets for Mr. Buchanan; but of this you have enough with out my aid. The truth must soon come forth-The European intelligence is all for peacesave in Prussia and China, where our choleric relative, Mr. Bull, is at hard knocks, in the latter having involved our American naval force as allies. The Chinese seem resolved on suffering the destruction of Canton, rather than submit. It is a horrid war; for these poor Chinese however insolent and supercilious towards other people, are mere children in the art of war and stand up only to be butchered. What is to come of the Persian hostilities, is not so clear. The operations in the Persian Gulf cannot have in view anything like a decisive blow against the heart of the kingdom, for that is far out: of the reach of any damage that may be done in the

Our money market is active, yet not stringent Trade and Exchange are in a queer state. For justance, the screw steamer Alps arrived here yesterday from Europe with about a quarter of a million of dollars, in specie, and the Arogo sailed don of a breakwater in the harbor of Milwaukee from here for Europe, with the same amount .-This sending coin both ways at the same time shows want of confidence, perhaps, more than anything else. Yet on our side commercial affairs were never, it is believed, sounder, or on the whole more prosperous.

CAUCUS SECRETS. The News continues to be disturbed at our brief reference to the secret doings of the midnight concluve at Madison, and incists that we did not get our information from "legitimate authority." We got it from indisputable "democratic" sources, though not from any of "the Forty" tribe, and we have yet to see it contradicted on respectable authority.

The News informs us that its senior editor, Mr. BHARPSTEIN, is absent (gone to Washington, office hunting) and deprecates tingentlemanly attacks upon the absent," The News itself never spared "the absent," when it felt in the mood of making attacks; but we will not retaliate, and so long as the News does not invite, or provoke attacks, shall make none.

SAN AND SHAM.—The News of yesterday, puts aundry questions to the Scatinel, to accortain the relations existing between the Know Nothings and the Republicans. We know of none. But the following paragraph from the Madison correspondence of the Racine Advocate, may help our neighbour to discover what loving yokefellows the K. N's and Sham Democracy are : fellows the K. N's and Sham Democracy are:

Where is Sam! Senator Harvey has most offectually stirred him up with a long pole, right in the Democratic fold, by reading from the deletates of the Constitutional Convention, the views of Judge Dunn on the right of suffrage to foreigners, showing him to be a true blue Know Nothing. And these are the Gods whom than Nothing. O, Is aged of Foreignborn Democracy!

Judge Duan was the "" regular Democratic candidate for U. S. Senator. He received the votes of all the members of that party in the Legislature, and was endorsed by the News and

MADISON, Feb. 14, '57. The dark, portentous thunder clouds this norning made the gas lights necessary at 9 o'clock in the Assembly chamber for a time, but they broke soon, and there was light enough to go on with business as usual, though the air out f doors was still London-like.

A bill, introduced by Mr. D. Williams, printed and laid on the table, providing for the stablishment of an Agricultural College, on the basis of a reservation of 25 per cent of the revenue from the swamp lands until the amount reaches \$200,000. These Swamp Lands will doubtless help to pay for a good many good things, but there is danger that too large calculations will be made. In Senate, this morning, there was presented

remonstrance from a portion of the supervisors of Milwaukes county, against the passage of the bill for a County Auditor. These gentlemen modestly insist that they are the only proper persons to petition or remonstrate on the subject of laws for the management of affairs. They think that the expenses of the county are already too large, and do not desire them to be increased; but the fact must be evident that an efficient Auditor would reduce those expen-

The "Personal Liberty" bill of Mr. Bean passed the Senate this morning, after being so amended as to provide that all seizures of property made under the Fugitive Slave Law shall be void. It was thought by some of the Senators that this provision, as drawn, was an ex post facto clause, atended to operate in a recent case, and Mr. Greulich states that but for that clause he would have voted for the bill. Mr. Rose, dem., voted for it; otherwise it was a party vote. Messrs. Simpson and Cook spoke carnestly, in which he proposed to "shed his blood in defence of southern rights." Both Mr. Cook and Mr. Simpson look sometimes as if they mean all Fund will amount to \$393,489, and the expenses the dreadful things they say about the things to estimated by the Secretary of State, are \$845,result from "Shanghai legislation"; but I think 316, leaving a balance of \$47,113. Another old acquaintance has also made its appearance, which has come down to us through uccessive Legislatures since 1850, in the shape equivalent for services rendered; and we have of a claim of R. L. Ream for making certain maps. Somehow the holder of the claim has never been able to satisfy the Legislature that i has not been paid, at least once. Committees on claims have been badgered into reporting in ts tavor, but have told such apologetic stories of the reasons for it, that the bill has been thus far ejected. Mr. Hastings is now to be tried.

HOW TO SECURE HARMONY! Lest there may be, hereafter; any expression of "conscientions scruples," on the part of a Lt. Governor who differs from the majority of the two Houses, Mr. Noggle has introduced a resolution to smend the Joint Rules so that when the

A QUESTION OF VERACITY! Messrs. Appleton & Co., the New York booksellrs, have sent up a bill of something over \$100 for books purchased two years ago by Mr. Kruer, the State Librarian, and for which they say they have never been paid. The Committee transmit to the Assembly certain papers, among which are Ex-Governor Barstow's Message to the Legislature transmitting the list of books purchased as vouchers for the money then appropriated; and the books for which the present Messrs. Appleton, one of them promising to try got that money. and get the claim through the Logislature, and the other proposing to avrange the matter with them when he went to New York. The question is, have Messrs. Appleton & Co. made out

their bill twice? and if nor who has got the money? Madison, Feb. 16. A memorial passed the Senate on Saturday asking Congress to make provisions for the erecand for a Marine Hospital at that port. The formation of the bay of Milwaukee is well adapted

THE GEOLOGICAL SURVEY-GROLOGY A HUMBUG! The Senate bill above mentioned was under discussion in the afternoon, in Committee of the whole. Mr. Barber took the burden of opposition to it--indeed he made the only remarks against it, and a good many of them. Nobody doubts Senator Barber's ability or intelligence; but what is any intelligent stranger, who happens to be in the Chamber, to think of the Sento: who, in this age, calls geological surveys "humbugs"--"scientific humbugs"---"absurd wastes of money"_that no benefit has arisen from them either to mining or agricultural intercats-that "these spectacled gentlemen only go about and gather up what is told them by miners." &c., &c. ?

Messrs. Davis, Clark, and Cook defended the bill. It was made the special order for Thursday.

Mr Reymert expressed himself as friendly be based on something else than throwing blame on other people's shoulders, since the law required hun to make quarterly reports, and he should have done so.

Mr. Hutchinson believed in holding public officers to a strict account, and thought that no such officer could properly ask relief from the consequences of gross neglect of duty. It made little difference to the State whether the Treasurer took the money, or stood aside and let oth-

Election for Guief Justice.—The Platteville (Grant Co.) American thus takes ground in
favor of the re-election of our present Chief Justice.

The PlatteNote of view.

At noon, resterday, the "Cook's husband," as he has been called—"John, the errand man,"
who, on the testimony of all of the immates of the house, came there two or three times a day, "played with the Cook," and was of constant "played with the Cook," and was of constant the cook, and was of constant the cook, and was of constant the cook, and was of constant the cook." tice;

Without the endorsement of any caucus or convention, we place at the head of our columns this week, the name of the present incumbent, Edward V. Whiton, as the man whom it is the retained at that important post. Knowing him to be a man of pure life, of thorough education and extensive reading, of well balanced and comprehensive mind, and of unbending integrity, the people elected Mr. Whiton judge, when the State was strongly Democratic, over a parties an candidate. His course on the bench, in trying and perplexing cases, his high stand on the important questions of the day, the strict justice which he has rendered, unmoved by fear or favor, have endeared him to the people, and, and called hefers with the content such the Cook, in the mouse, came there two or three times a day, "played with the Cook," and was of constant service in the family, was arrested in a "corner grocery," at the corner of Grand and Crosby streets, by officer Wilson, of the Fifteenth Ward. Judge Capron and the Jury have interported the wintesses who were likely to know anything about bim, as to his whereabout but to no purpose. As he had not been heard of since the day of the murder, and was evidently keeping himself out of the way, the police were instructed to scarch for him, but they were unsurcessful until yesterday. He was taken to a cell in the Eighth Ward Station, that he might hold no conversation with Hannah Conlan, the cook, or any of the witnesses under confinement in the Station-House in the Fifteenth Ward. It is anticipated that his evidence will be of importance. His name is John Gilmartin. He is rather a favor, have endeared him to the people, and, well qualified before, with his experience on the bench, to which he has been an ornament, he is His name is John Gilmartin. He is rather a good-looking Irishman, about 40 years of age.

We understood at the Station-house yesterday now unquestionably the fittest man in the state that a gentleman of respectability called on the Coroner yesterday, and stated that he was passng through Bond street about a quarter of elever A FAMILY MISSING .- The Boston Atlas of the o'clock on the Friday night, and saw a man sit

A FAMILY MISSING.—The Boston Arms of the 12th instant contains the following paragraph:

Mr. John M. Wood, left Lynn on the 13th of October, with his family—wife, four boys and a girl—to go to Millard, Wisconsin. He hough through tickets from Boston to Milwauker, but, though diligent inquiries have been made, the family have never since been heard of, and it is foared that they have been lost in a storm on the Lakes.

RAILROADS TWENTY FIVE YEARS SINCK.—The Auburn American, in speaking of railroad matters, refers to the first passenger car used on the Albany and Schemectady Railroad, and shows that in this department of the fine arts we have made some decided improvements. The passing of the strange story about matters and things— Albany and Echenectady Rairoad, and shows that in this department of the fine arts we have made some decided improvements. The passanger cars of the Mohawk and Hudson Railroad were originally mail stage bodies placed on trucks. Each would accommodate nine persons inside who set facing each other. Four boxes he knew about the nurder—that he said he could tell a strange story about matters and things—about the fire being kindled in the room in the attic; when and how it was kindled on the night of the murder, and for what purpose and how long it was burning. It is further said that as soon as Mr. H. L. Clinton, counsel for Mrs. Cunningham, haved that he had so expressed himself, he set about procuring his release by habeas corpus, and advised him to leave the city at once. trucks. Each would accommodate nine persons inside, who sat facing each other. Four horses drew two of these "cars" over the road at the rate of about eight or nine miles an hour. No locomotive was employed for a year or two after the road opened. The first was a small one made in England. The first improvement in this style of railway coach was a car having three compartments, each capable of accommodating six passengers, who sat face to fice. These compartments connected with each other only by small windows, which could be opened or closed at will. No fires, no easy cushioned seats, no oil cloth or matting under foot, no water tank or other

years, the pressure has been equal to full thirty years, the pressure has been equal to fun thirty one inches, but after careful examination, we have been unable to find, that height has ever been reached elsewhere than in New England. At Greenwich Observatory the maximum in ninety years was 30.95; this occurred about sixty years since, and has never since been attained.

It is therefore probable, as has been heretofore stated, that at times, the air in the Northeastern part of the United States is more condensed than at any other part of the Earth, where observations of the barometer have been made for a series of years.—Boston Traveller, Feb. 12.

Attempt of a Judge to Murder a Re-[Correspondence of the Cincinnati Gazette.] LAWRENCE, Kansas, Feb. 2, '57. Washington, Feb. 11.

We have had one of the most exciting and interesting day's proceedings ever known in the American Congress. Under the requirements of the constitution and a previous joint resolution, the Senate entered the Representative hall a little before noon, preceded by the President protein, who was escorted to a seat on the right of the Speaker. Before the Senate came in quite a spirit of meritiment prevailed. A number of propositions had been submitted

and is expected soon to recover. The books papers in his pocket probably saved his life.

The Judge discharged his revolver a see time without effect, and then both parties re-treated from the field. Knizia is doing well; the Judge is rather bad off. Elmore and his friends explaintly intended to

Promenade Concert and Ball. The Hembers of Supply Hose Company give a Prome-nade Concert and Ball at "the Albany" this evening.— The Hall will be handsomely and apprepriately furnished for the occasion, palatable refreshments will be provided by MoEway, and Leman's famous Light Guard Band, from Chicago, will supply the music. The entertainment will commence at 8 o'clock with a Promenade Concert, when programme for which may be found in our adverti-ing orimins; to be followed by a regular ball. Carriages may be procured at the Livery Stables of S. B. and J. Davis, and Butler and Bowers, as also at the Hall. The Company have taken unusual pains to make their party alike degent and attractive, and as they are a first rate set of follows, as firemen, or citizens, we hope to see them greated to night by a full house.

To all who may read:

OFFICE TWO WEFEN AGO I announced through the city papers that I would receive soried thirty to forty thousand dollars worth of ready-mails Clothing and Dry Goods. They have all strived, and I am now prepared to make sales of the same, or to exchange the said goods for Railroad Stocks or Kailfond Honds, or I will exchange then for City or Dounty Mortgages, or I will sell in sums of one thousand dollars on ax and twelve or eighteen months oredif, for good paper, or on two years credit for mortgage on any Real Estate in City or County, and the goods will be sold predesty at the same price that you can go to New York and purchase them, with transportation added, and the goods are at fashionable and in good order, and every article warranted.

Any one wishing to make a purchase of said geods, if chanism.

Bone estimate of the importance of an lovention that fill materially facilitate the production of this great taple may be formed from the fact that in 1556 near 500, 90,000 hashels were raised in the U.S., exceeding in take all other grains, with the entire cotten wrop in addition. dition.

The present universal method of planting this great crop is (after the ground is ploughed) by marking out the surface \$% or 4 feet apart each way, and in the angles thus formed, a man drops 4 or 5 kernels, and covers with a hoe at an expense of \$12 25 per acre; but failure of part and sometimes the whole crop results from the difficulty of the surface of ranted.

Any one wishing to make a purchase of said geods, if they will call at my office they can see the involce.

If may one wishes to purchase the entire involce, which is thirt-two thousand dollars, it will exchange the entire stock for good City Mortgages running from three to Evo years, with seven ner cent interest. Or, for La Orest Railroad Stock or La Crossa Construction Bonds, or Mississippi & Milwaukes Railroad Stocks will be taken in Signents on the dollar, and the goods charged at New York prices.

Practical men understand this everywhere. Numerous devices and machines have been made, but fallure has only resolted. A plan perfect in one respect was certain to fall in another, so as to render the whole worth-

District State of the impossibility of califyating but it one direction.

The long wished for machine has been invented and perfected by a years Sootohman, and is the result of three years unwarded efforts puttent investigation and the application of scientific and inechanical principles to accomplish a deared object.

The device is entirely new, simple and beautiful, working automically and yet to ingeniously and naturally as almost to appear the result of instinct.

What Whitney's great invention did for cotion this greater invention will do for come, vis: augment the quantity and diminish out.

No description could convey a clear idea of its peculiar and simple machalism.

Without any Orgs, Band, Pullies, Cranks, Shafts, Springs, Levers, or Gearing of any kind, with a horse, guided by a man re boy, this machine executes in a neat and perfect manner the following described work, being what is wanted by every farmor:

1et. Furrows out the ground any required depth.

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the Hill equidistical, in one-canh of a second.

3d. Covers the Hillis and presses the earth as you do with a hoe.

4th. Marks actually the position of each Hill.

3th. Deposits, if wanted gramo, Pondrette nahes, lime, plaster, or other common fertilizers, exactly in the Hill And 6th. Also, sitcks the pumphin or squain seed in the Hillis at a cost of 16 cents an acro by single machine, and 10 cents per acre by in double one—Ill acres being planted by the first, and 20 by the execud, in one day, with no more force than a man and horse.

We are aware these statements look functifut to that large, ciercotyped, old fogy class, who are about a quarter of a contury to the read of this progressive age, and whose ideas revolve in the cle, slow coach train; but we savare all such antiqued perfected and man and horse.

No. 1, Opposite Newhail House, Michigan St. HAVE SEVERAL bargains, I think, in Real Estate, a list of which will publish in a fiw days. I also have some thirty choice Lots in Rithourn City for sale, and I would call the attention of mechanics and others who want to secure themselves a good home in that large and growing city to call and accurs one of the said lots which will be said on very easy terms. In the course of sixty days I will have a public sale of Lots in that beautiful and go-a-abeed city. Watertown, In the course of ten days I will give a more minute advertisement of said city, and of the sale of lots. I would also remark that when the proper time counts, I would also remark that when the proper time counts, I will make weekly and daily reports of sales of Real Estate in our Oity and County. I have been looking over the sales of Real Estate this time last year, and I find that about the middle of March, the sales of Real Estate were very large, averaging from \$50 to \$100,000 per week. I anticipate larger sales this spring and summer, as soon as the avere weather is over. We may look for bright times If, from what I learned while Essi is to be relied upon. Milwatech has a great name abroad, and hundreds are proparing to come and live among us. The Newhall House will be completed and furnished, an i opened by the lat of June—so says my friendijnewhall—which, when opened, will be kept requal to any Rote in the United Estates; and what a grand occasion it should be to us all, and ten thousand thanks should be givent our friend Daniel.—for us. One or two closes of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsis, Jiacadoe, Servoanees, Indigestion, Costiveness, Liver Complaint, Ellifousness, Actuancholy, and will cure all organic dischering the rin man or woman. Ladies troubled with irregularities or wesitening discharges, may rely upon a prompte cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and to illiant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the healty Relief as a wash for the teeth and an aromato for the heach, will change the most disgusting foul breath to sweetness, and the blackest work to Parian whiteness.

CONGESTIVE DISEASEN, APOPLEXY, TERMINATION OF
BLOOD TO THE HEAD.
Persons of full blooded plethorle habits are more subject to congestive diseases, leadachese, such of blood to the head, than those of a lean habit; bleeding in these cases is ingly detrimental, nor does this proclice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circuitation, and the irregular action of the heart. Now a dose of Radway's Regulators will correct ail these difficulties—they will correct the aution of the heart, liver, and all other organs to a natural and regular action, and will immediately equalists the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only regulates the bowsis, by which all diseased and injurious matter is purged fron the hody, but they control the whole system, and, hebee loach and every organ, the heart, brain, liver, nerves, bawels, skin, pannous, bladder, kidneys, stomach, langathrad, blood, and every through in the whole organization, to a leadily mad regular action. They infuse new life throughout the whole system; their action is not confined to any load part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and duposite from the body. In a few hours after taking a dose of these life creating pills you feel refrashed and invigorated from Feat to hoot.
